## Zaamin Jaffer

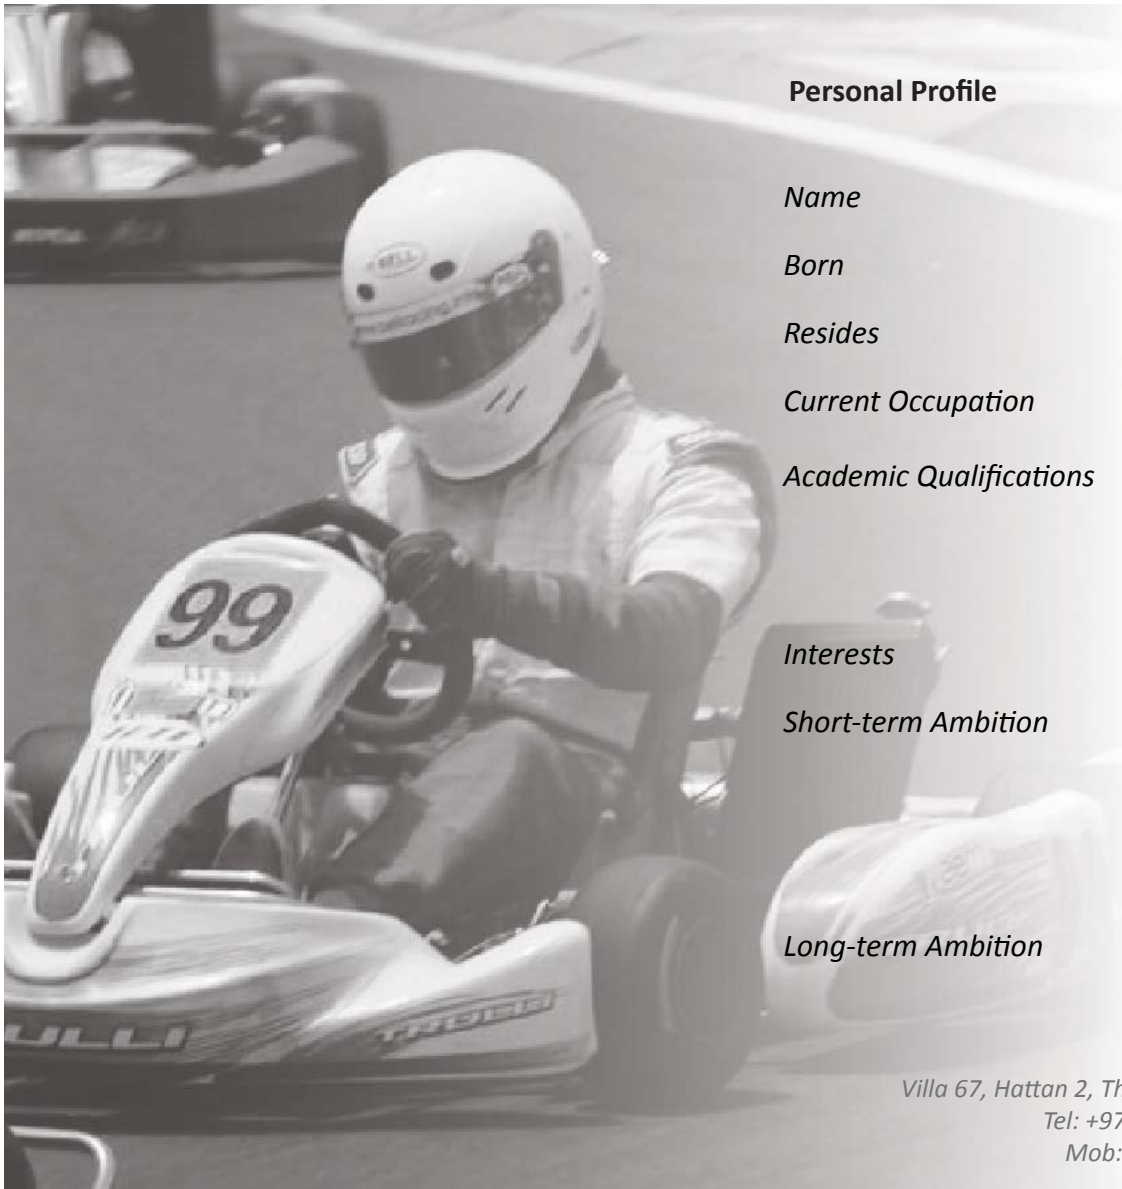

Zaamin was born in Mumbai and initially raised in India. At the age of 5 he became fascinated with the world of motorsport through his enthusiasm for Formula One, but the lack of motorsport infrastructure in India meant that his dream of becoming a motor racing star was to become distant. In spite of this, his first experience of kart racing was at the age of 9. When he moved to Dubai aged 16, he moved straight into senior karting championships and took part in his first national championship race at the Dubai Kartdrome scoring a podium on his debut. Ever since then he has competed in the UAE National Karting Championship - finishing regularly within the top six and three rounds of the 24hr of Dubai - each with a podium finish. Zaamin is now moving into the field of single seater racing and having experienced FBW in testing, hopes to move onto Formula Ford which will be his target for the 2009 season.
